

Sport Ice 248

More Options

The new 248 Series now comes with more options. Features that help you build and maintain a better ice skating surface. These include a new board brush, water pick up system, snow plow, water level sight gauge, tire wash system and bumper mounted guide wheel. Options that increase your operator's comfort; like a heated seat, an automatic snow breaker, a snow tank light and a 12V dash mounted power port. We've even included a standard dash mounted cup holder!
